A One-Click Trade may be rejected in such circumstances as a lack of Free Margin or refusal by the Dealer to open a position and will be recorded within the Server Log-File.

6.32. The Company may be required to cancel a transaction if requested by an exchange or may be required to cancel an order if requested or recommended by an exchange and the Client agrees to use all reasonable endeavors to assist the Company in this regard.

6.33. The Client acknowledges that it may not be possible to cancel or modify an order. Any attempt to cancel or modify an order is simply a request to the Company to do so. The Company is not liable to the Client if the Company is unable to cancel or modify an order as per clause 16.6 (“Liability of Parties”). The Client understands and agrees that, if an order cannot be cancelled or modified, the Client is bound by any execution of the original order.

The Client further acknowledges that attempts to modify or cancel and replace an order can result in an over-execution of the order or the execution of duplicate orders, that the Company’s systems do not prevent such over-executions or duplications from occurring, and that the Client shall be responsible for all such over-executions or duplications. If the Client enters a cancellation request, the Client agrees to confirm that the cancellation request has been affected prior to entering a replacement order.

The Client agrees not to assume that any order has been executed or cancelled until he has received written confirmation from the Company. The Company is responsible for knowing the status of the Clients’ pending orders before entering additional orders. The Client agrees to contact the Company immediately if the status of an order is unclear.

The procedure of Order execution

6.34. The Order is placed in the queue in order to be executed in the following cases:

a) the Take Profit on open Long Position is placed in the queue in order to be executed if the Bid price in the Quotes Flow becomes equal or higher than the Order Level;

b) the Stop Loss on open Long Position is placed in the queue in order to be executed if the Bid price in the Quotes Flow becomes equal or lower than the Order Level;

c) the Take Profit on open Short Position is placed in the queue in order to be executed if the Ask price in the Quotes Flow becomes equal or lower than the Order Level;

d) the Stop Loss on open Short Position is placed in the queue in order to be executed if the Ask price in the Quotes Flow becomes equal or higher than the Order Level;

e) the Buy Limit is placed in the queue in order to be executed if the Ask price in the Quotes Flow becomes equal or lower than the Order Level;

f) the Buy Stop is placed in the queue in order to be executed if the Ask price in the Quotes Flow becomes equal or higher than the Order Level;

g) the Buy Stop Limit is placed in the queue to be executed if the Ask price in the Quotes Flow becomes equal or higher than the Order Level;

6.35. Once the Pending Order is placed in the queue in order to be executed, the Server automatically checks if the Free Margin is sufficient to open the position:

a) cumulative Client positions and new Necessary Margin (“New Margin”) are calculated depending on the Initial Margin, which is calculated at the average weighted price (in terms of volume) of all positions;

b) if the Pending Order Level is in the Price Gap, the Floating Profits/Losses for all Open Positions and the new position are calculated at the current Quotes at the moment the Order is placed in the queue in order to be executed; and

c) “Free Margin” is calculated as follows: $\text{Free Margin} = \text{Balance} - \text{New Margin} + \text{Floating Profit} - \text{Floating Loss}$; d) if the above-mentioned calculations for the new position have been done and “Free Margin” is less than zero, then the Company has the right, but not obligation, to decline the Instruction to open the position and delete the Pending Order and the “No money” message will be recorded in the Server Log File.

6.36. An Order is deemed executed once the relevant record appears in the Server Log File.

6.37. In case of Pending Order execution, the process of opening the position is followed by the relevant record in the Server Log File and the position opened by this Order is being added to the existing Cumulative Position for this instrument.

6.38. Pending Order can be executed partially if there is not enough liquidity to hedge the trade with Liquidity Providers at the Order Level.

6.39. In the cases where insufficient liquidity exists at the order level and/or the order level falls within a price gap at market opening and/or during the quote(s) flow, the Company, in its sole and absolute discretion, may execute Buy Limit, and Take Profit orders at the requested price at the moment the order is executed.

6.40. In the cases where insufficient liquidity exists at the order level and/or the order level falls within a price gap at market opening and/or during the quote(s) flow, the Company, in its sole and absolute discretion, may execute Buy Stop, and Stop Loss orders at the current available price at the moment the order is executed. The Client acknowledges, agrees and consents herein that the execution price may differ from the order level.

In the cases where a pending order level and/or the respective order's Stop Loss and/or Take Profit shall fall within a price gap at market opening and/or during the quote(s) flow, the Company, in its sole and absolute discretion, shall open and close a position immediately within the same tick, at the first available price.

Limit Order

6.41. The Company does not offer Limit order execution.

Suspension of Order

6.42. If at any time trading on the Underlying Market is suspended in any Security that forms the subject of the Client's order, then the applicable order will also be suspended and the Client will not

be able to sell any Security that the Company holds on Client's behalf until such suspension is terminated and trading recommences.

6.43. Following lifting of suspension, any order that the Client may have given with respect to the Security that has been triggered will be executed as soon as is reasonable in the circumstances having regard to liquidity in the Underlying Market. The Company cannot guarantee that his/her order will be executed at the first available Underlying Market quote.

Cancellation of Order in case of insolvency/ dissolution/ delisting of Instrument (Company)

6.44. Where the Instrument is in respect of a company, and that company is delisted from the Underlying Market, goes into insolvency or is dissolved, the order will be cancelled and any Stocks the Company holds on Client's behalf will be dealt with in accordance with the terms of the delisting, insolvency or dissolution, as applicable.

6.45. If the Company is notified that a Stock that a Client holds in his/her Account is likely to be delisted, the Company will promptly inform the Client, and then promptly sell the Stock on his/her behalf at such time and price, and in such manner, as it determines.

7. STOP OUT

7.1. The Client acknowledges, consents and agrees that the Company is entitled to close the Client's Open Positions without the consent of the Client or any prior notice if the Equity is less than the Level of Stop Out specified at Trading Terms on the Company's Webpage.

7.2. Margin Level is monitored by the Server and subject to clause 7.1 the Server generates the Stop Out Instruction to close a position. without prior consent. Stop Out is executed at the price at which the Company has hedged the trade. The Company has the right, in its sole and absolute discretion, to adjust this price to reflect the cost(s) of hedging. Stop out shall be executed at the current price available at the moment the order is executed.

7.3. If the Client has several Open Positions, the first position which has to be placed in the queue in order to be closed is the one with the highest Floating Loss.

7.4. The Company ensures that losses will never exceed the total available funds across the Clients' **ACTIVE BROKER** trading portfolio (negative balance protection).

7.5. The Company has the right to close any Open Position of the Client without warning if it is required in accordance with the Dispute process.

7.6. Please bear in mind, that the Company may at its sole discretion change within the hour before the close of the trading session on every Friday, the Stop Out and Margin Call levels from 50% to 100% and from 80% to 130% respectively, for all ECN MT5 accounts. Moreover, kindly note that the Company may extend these amendments for as long as it deems necessary after the market opening, by providing the Client with prior written notice.

8. OFF EXCHANGE

8.1. The Company may deal through Exchanges and numerous Retail Service Providers and Market Makers. The Company may place a Client's order outside of an Exchange if this satisfies and is in accordance with the Order Execution Policy of the Company. By accepting these Terms of Business, the Client agrees and acknowledges that the Company will be entering into transactions for and on Client's behalf outside a regulated market or a Multilateral Trading Facility, as defined in clause 24 ("Interpretation of Terms") below herein.

9. AGGREGATION

9.1. The Company may aggregate orders received from the Clients. Aggregation means that the Company may combine a Client's order with those of other Clients of the Company for execution as a single Order. The Company may combine a Client's order to deal with those of other Clients if the Company reasonably believes that this is in the best interests of the Clients as a whole. However, on occasions, aggregation may result in Client's obtaining a less favorable price once an order has been executed. The Client acknowledges and agrees that the Company shall not have any liability to the Client as a result of any such less favorable price being obtained.

10. CUSTODY

Stocks Registration

10.1. Stocks which are held by the Company for Client's Account will be registered in the name of the Company, as the Client's custodian or (b) a nominee other than the Company, including a sub-custodian or a recognized depository clearing organization. Client's ownership of the Stocks will be reflected in the Company's records.

Client Assets

10.2. The Client instructs the Company to hold any Security bought on Client's behalf until the Company receives further instruction from the Client to sell. The Company will act as custodian and will hold Instruments on Client's behalf in accordance with any applicable regulations.

10.3. The Company may, subject to any applicable regulations, appoint any other person as a sub-custodian or otherwise to hold Stocks, including documents of title or certificates evidencing title to such Stocks. The Company will exercise reasonable skill and care in the selection, appointment and periodic review of sub-custodians but will not be liable for the third parties' acts, omissions, insolvency or dissolution as per clause 16 ("Liability of Parties"). Any discrepancy in terms of Client assets and any resulting shortfall will be dealt with in accordance with any applicable regulations. Detailed records of all of the Clients' Stocks held by the Company will be kept at all times to show that Clients' Stocks are held for and on his/her behalf and benefit, and do not belong to the Company or any subcustodian.

10.4. Clients' Instruments will be registered in the same name as those of other clients (pooled together with other Clients' Instruments in an omnibus co-mingled custody account). If the Company or the third-party nominee were to become insolvent there may be delays in identifying individual assets, and possibly an increased risk of loss if there should be a shortfall because additional time will be needed to identify the assets held for specific clients. In addition, in the event of an

unreconciled shortfall caused by the default of a custodian, the Client may share proportionately in that shortfall.

10.5. The Client authorizes the Company and any sub-custodian to hold or transfer Stocks (or entitlements to them) to a Stocks depository, clearing or settlement system. Stocks that cannot be settled through a central Stocks depository system may be held overseas by a third-party (including custodian, sub-custodian, registrar, bank, intermediate broker, or settlement agent) in the name of the Company or a third-party nominee. Details of the name that an Instrument is registered in are available on request.

10.6. The Client agrees that because of the nature of applicable laws or market practices in certain jurisdictions, the Company may decide that it is in the best interest of the Client and for his/her Stocks, to be registered or recorded in Company's name or in the name of the person who is a custodian. If this/her is not feasible for the Company, then:

a) Client's Stocks may be registered or recorded in the name of the Company or custodian as the case may be;

b) Clients' Stocks may not be segregated and separately identifiable from the investments of the firm or custodian in whose name the Instruments are registered; and

c) As a consequence, in the event of a failure, Clients' Instruments may not be as well protected from claims made on behalf of the Company's general creditors. It should be noted that when the Company arranges for a third-party to hold Clients' Instruments overseas there may be different settlement, legal and regulatory requirements than those applied in Saint Vincent and the Grenadines.

10.7. The Client remains the beneficial owner of the Stocks and money that the Company holds for and on Client's behalf. The Client hereby acknowledges and agrees that he will not try to sell, mortgage or otherwise deal in or part with beneficial ownership of the Instruments and money held on Client's account with the Company.

10.8. The Client will not be entitled to any interest in respect of Stocks and/or money held by the Company as custodian and any interest will be retained by the Company.

10.9. The Company may be required to give Client's details (including email address) and details of Client's shareholding to the companies' registrars.

10.10. In the event that the Company has not received instructions from the Client in relation to any of the Stocks held in the Client's account (e.g. to purchase, sell or move the assets) for a period of at least (12)twelve years (notwithstanding any receipts of dividends or interest or similar items and irrespective of any movement of the Client's account balance) and the Company is unable to trace the Client despite having taken reasonable steps to do so, the Client agrees that the Company may cease to treat the assets as Client assets.

10.11. The Company will maintain true, complete and accurate records relating to the liquid funds and Stocks held by it for each Client. The Company will take reasonable care in the selection and

ongoing supervision of the bank and depository with which the liquid funds and Stocks are deposited, but will not be liable for the acts or omissions of the bank or depository as per clause 16 (“Liability of Parties”). Clients’ assets may be at risk if the bank or depository becomes insolvent. If any of the liquid funds or Stocks held for and on behalf of the Client by the Company are properly passed to the account of a third party in connection with a transaction or in order to meet margin or collateral obligations, the funds or Stocks may be at risk if the third party becomes insolvent.

Since Clients’ liquid funds and Stocks will be pooled by the bank or depository with liquid funds and Stocks belonging to other Clients, the Client will not have a legal claim against a specific sum of money or a specific security. Instead, any claim will be against the pool in general. If there is an irreconcilable shortfall in the pool of liquid funds or Stocks following a default by the bank or depository (for example, if it becomes insolvent), the Client may not receive the full entitlement to the liquid funds or Stocks. If so, the Client will share in the shortfall pro rata. The laws of some territories outside Cyprus do not recognize the legal concept of a “client account”. If the Company becomes insolvent and any of the Clients’ liquid funds or Stocks are held in the name of the Company by a bank or depository in such a territory, those funds or Stocks will therefore be available to Company’s creditors generally and so may be at risk. If Clients’ liquid funds or Stocks are held by a bank or depository outside the EEA, the applicable legal and regulatory regime may differ from that of the EEA. Clients’ rights may differ accordingly, particularly if the bank or depository defaults.

11.FEE

11.1. The Client will be subject to certain fees and commissions. The Clients hereby agrees to pay brokerage commissions, charges, foreign exchange dealing commissions on currency conversions, credit card processing fees and other fees promptly as set forth in the Company’s website as applicable to Client’s account and the transactions and Services the Client receives. The Client also agrees to pay all applicable country, federal, state and local taxes. The Client authorizes the Company automatically to debit his/her account for any such commissions, charges, fees and taxes. The Company may modify the fee schedule at any time.

11.2. Additional charges may also be incurred by the Client in the case of delayed or failed settlement of a transaction. Any such amounts will be the Client’s responsibility and where appropriate will be deducted from the Client’s account.

11.3. The Company may charge the Client for the provision of market data or any other account feature or such other fees as the Company reasonably advise the Client from time to time.

12.SETTLEMENT

12.1. To execute a purchase order for Stocks, the Company requires that the Client’s account contains available funds equal to or greater than the purchase price of the Stocks plus any associated fees and commissions and that all payments for the purchase be made without set-off, counterclaim or deduction.

12.2. Settlement of purchases will be at the Client’s risk. Accordingly, the Company will not be liable to the Client if any other counterparty to an order defaults. Applicable law may require the

Company, the Execution Broker, any other counterparty, a bank or a depository to deduct tax from sale proceeds before they are credited to the Client's account or remitted to the Client from his/her account.

12.3. The Company will effect any currency conversions necessary in order to settle a purchase at such rates, and in such manner, as it may, in its discretion, determine.

12.4. Where available, the Company utilizes central Stocks depositories for the settlement of the applicable Security. If an Instrument ceases to be able to be settled through the applicable central Stocks depository, the Client accepts that the Company may have to use alternative dealing facilities to fulfill the order and/ or levy an increased charge for such order.

12.5. The Company is not responsible for any delay in the settlement of a transaction resulting from circumstances beyond the Company's control, or the failure of any other person or party (including the Client) to perform all necessary steps to enable completion on the settlement date. Company's obligation is only limited to pass on to the Client, or to credit to the Client's account, such deliverable documents or sale proceeds (as the case may be) as the Company actually receives.

12.6. The Company may refuse to allow a withdrawal on any account that the Client has with the Company if it would leave insufficient funds in the account to pay for any unsettled transactions. Where the Client makes payment into his/her account and then make a withdrawal shortly afterwards, the Company reserves the right to delay settlement for up to eight business days to ensure that the payment has cleared.

12.7. If the Client buys an Instrument, the consideration for the transaction and, in addition, commission payable and all applicable charges and taxes to that transaction will be the Client's responsibility and will be deducted from his/her account and held by the Company as pending settlement. Monies deducted will not be treated as client money on the day of expected settlement. If settlement does not occur on the day of expected settlement the monies will be treated as client money. It is the Client's responsibility to ensure at all times that sufficient cleared funds are on his/her account to satisfy settlement of any transaction and all commission, charges and taxes associated with that transaction.

12.8. If the Client sells an Instrument, the transaction will be governed by the Terms of Business for Stock CFDs.

12.9. Should the transaction fail to settle for any reason, the Company may reverse the transaction, return any commission and all applicable charges and taxes for that transaction and cancel the debit of any cash from the Client's account and amend the account accordingly to reflect the same.

13. CORPORATE ACTIONS REGARDING STOCKS, VOTING RIGHTS, INTEREST, AND DIVIDENDS

General

13.1. While trading Stocks, please consider that the Company may, at its sole and absolute discretion, apply reasonable measures in order to reflect the Corporate Actions of the underlying assets. This can include but is not limited to: Stocks Splits / Reverse Splits, Spin – offs, Dividends

Payments, Rights Entitlement Issues, Mergers or Acquisitions, Reorganizations, Take – Over offers (and similar), Name and Symbol changes, any available Insurance Coverage (Including the limitation of such insurance) etc.

13.2. Please also note that it is the Client's sole responsibility to be aware if an upcoming corporate event is approaching that may affect the underlying Stocks. The Company might charge the costs associated with the corporate actions, depending on Client's position direction (Buy), without a notice as this has been applied directly by our Liquidity Provider and/or the respective Exchange and/or Price Feeder to the Company. The Company will make its best efforts to effect the adjustments needed on the Client's Account on the basis of good faith and fairness and, where appropriate, by taking such action as is consistent with market practice and/or taking into account the treatment the Company may receive from its counterparties or any relevant third party.

13.3. Nothing contained herein shall be construed as an obligation of the Company to provide to the Client such rights resulting out of a Corporate Action.

13.4. The Company shall not be obliged to but may arrange for the Client to receive the report, accounts and other information issued by a company. The Company is not obliged to but may notify the Client of or arrange attendance at any annual general meetings or extraordinary general meetings applicable to Clients' Instruments.

Corporate Events

13.5. A corporate action is something which will bring about a change to the Instruments the Company holds on Client's behalf, such as a rights entitlement issue. If there is a corporate action on Instruments the Company holds on Client's behalf, the Company will use reasonable efforts to contact the Client, however the Client acknowledges that there may be situations where it is impractical to do so. The Company shall be under no duty to tell the Client of or act upon any corporate event until the relevant Instruments are registered in the name of the Company's nominee. Only information issued through the applicable Exchange or the registrars will be relayed to the Client.

13.6. The Client must return any valid election correspondence in respect of a corporate action by the deadline specified by the Company. This may not correspond with the deadline set by the registrars. It is Client's responsibility to ensure he has sufficient monies on his/her account to satisfy any purchase of Stocks pursuant to a corporate action. Where Stocks or cash are due to the Client as a result of a corporate action, these will be credited to the Client's account as soon as reasonably possible after the Company receives them, net of any commission, payment and applicable tax. Elections received in respect of corporate actions are deemed to be irrevocable and final.

If the Company has not received a valid election correspondence from the Client by the relevant date, the Company will use reasonable efforts to act in accordance with the default terms of the registrars, except in such a case that the Company has specified an alternative default option and/or in the following circumstances:

a) in respect of take-overs, the Company will use reasonable efforts to accept the default terms of an offer after the offer has been declared wholly unconditional or unconditional in all respects. The Client will be notified accordingly on receipt of the proceeds of the offer. Any adjustment shall represent the economic equivalent of the rights and obligations of the Company and the Client next to the time of the action; and

b) in the event of a Share held on Client's account altering the exchange on which it is listed, the Company will use reasonable efforts to return the shareholding to the Client in certificated form.

13.7. The Company reserves the rights to close out any open positions at the market price as soon as practical following such Corporate Event taking place, in order to make any required adjustment (price, quantity or any other adjustment) resulting out of the Corporate Action.

13.8. Where a corporate event results in a fractional entitlement to part of a Share, then the Company may aggregate those fractional entitlements and sell such fractional Shares and credit Client's account with a cash value which may be subject to a minimum charge.

13.9. Where corporate events (such as partial redemptions) affect some but not all nominee Instruments held in a pooled account, the Company shall allocate the Instruments which are affected to relevant clients in such a fair and equitable manner as the Company reasonably consider is appropriate.

13.10. If the terms of a corporate event require an election to be made on behalf of the Company's entire nominee holding in a company, the Company reserves the right not to offer an option to the Client, where it is reasonable to do so. The Company will use reasonable endeavors to give the Client an alternative option but without guarantying that this will match the options offered by that company.

13.11. The Company will reflect a corporate event on Client's account as soon as practicable after the Company has received confirmation that the corporate event has been completed from its custodians.

13.12. If the Company is notified of a class action or group litigation that is being proposed or taken concerning Instruments that its nominee is holding, or has held, on Client's behalf, the Company is not required to inform the Client about this/her or otherwise act on that notification.

13.13. In the case of spin - offs, these will be applied to the primary symbol. However, the spin - off quantity from the primary symbol will not be transferred to the new spin - off symbol. The Company will use reasonable endeavors and make its best efforts to add the spin-off symbol to the market watch as soon as practicable but without guarantying that such adjustment will take effect before the market opening. The Company will have no liability to the Client in relation to any profit and/or loss, costs or expenses that the Client may suffer as a result of the aforementioned actions.

Voting Rights

13.14. The Company is not obliged to but may inform the Client of, or arrange the exercise of any voting rights attaching to Instruments the Company holds on Client's behalf, whether exercisable at an annual general meeting or otherwise.

Interest

13.15. Any income payments or tax credits that the Company collect on Client's behalf will be credited to his/her account as soon as is practicable. The Company will not be liable for any loss of interest due to any delay outside Company's control in crediting any income to Clients account. Income payments will usually be credited in cash net of applicable Taxes.

Dividends

13.16. The Company will be responsible for claiming and receiving dividends, interest payments and other income payments accruing to Client's Instruments the Company holds on Client's behalf.

13.17. The Company is not obliged to but may offer the Client any dividend reinvestment plans available or any scrip option or stock dividend offered or the like for Instruments that Company holds on Client's behalf. However, any such decision will not take account of Client's personal tax position. In general, the Client will receive the cash default option.

13.18. The Company may, but is not obliged to, offer to the Client any other rights or special offers that are made available to holders of Instruments.

13.19. The Company may at its election claim or reclaim tax credits on dividends or other income on foreign Stocks. In order to deal in US Shares, the Client will be required to first provide to the Company with a valid US tax form (W8BEN Form). The Client has an on-going obligation to inform the Company if his/her tax status changes.

13.20. As the Company will hold Clients' Instruments in one or more pooled accounts, the Client may receive dividends or distributions net of applicable Taxes which has been paid or withheld at rates that are less beneficial than those that might apply if the Instruments were held in Client's own name or not pooled.

14. COMMUNICATION

14.1. In order to communicate with the Client, the Company will communicate with the Client as per Clause 18 of the Client Agreement.

14.2. The Client shall notify the Company in a timely manner of any change in his contact details either by updating the information in Client Area or by any other method offered by the Company.

14.3. The Client understands and accepts that the Company reserves the right to unilaterally terminate relations with the Client should the Client behave inappropriately when communicating with a Company employee.

16.9. Nothing in these Terms of Business shall limit the Company's liability for personal injury or death.

17. COMPANY MAY LOAN ANY OF THE STOCKS HELD IN A MARGIN ACCOUNT

17.1. The Client authorizes the Company to lend, as his/her agent, to the Company or a third party any Stocks held in the Client's account (if any) and neither the Company nor the third party shall have any obligation to retain possession and control a similar amount of such Stocks. In connection

with such loans, the Company may receive and retain certain benefits (including stock lending fees and interest on posted collateral) to which the Client shall not be entitled. Such loans may limit, in whole or in part, the Client's ability to exercise any voting rights relating to the Stocks lent. Any Stocks lent may be lent, in turn, by the borrower.

18. SECURITY INTEREST

18.1. Right of set-off: All of the Client's money, Stocks, currencies, and other property which the Company may at any time be holding for and on behalf of the Client (either individually or jointly with others) are subject to right of set-off by the Company for the Client's liabilities towards the Company.

The Client appoints the Company as an agent to take any action necessary to perfect this security.

18.3. If the Client fails to comply with any of the provisions of these Terms of Business, the Security will be enforceable by the Company. If the Client fails to comply as stated, the Company may accordingly, without any notification to the Client, cancel, close out or reverse any transaction it has entered into for the Client, and sell or otherwise dispose of any assets held by the Company for the Client, at any price and in any manner whatsoever, as it deems proper (with no responsibility for any diminution in price).

The Company will be acting on the basis of good faith and fairness in this respect. In addition, the Company may enter into any other transaction, or proceed to such actions and/or inactions, which would (or is intended to) have the effect of reducing or eliminating the Company's liability under any transaction it has entered into for the Client. The Company may receive third party payments only when the aforesaid is designed to enhance the quality of the service to the Client and does not impair compliance with the Company's duty to act honestly fairly and professionally in accordance with the best interests of the Client. The Company shall duly inform the Client in this respect.

a) enforce the Open Position or Trade against the Client if it is an Open Position or Trade under which the Client had made losses; and

b) treat all of the Clients' Open Positions and Trades under this paragraph as immediately void even if they are Open Positions or Trades under which the Client has made profits.
